

NDuraSilk™ WB System

Create wonder
when 2K becomes 1K

The 1K WB system for cabinets that
delivers 2K performance with zero waste

NDuraSilk™ WB System

Introducing an industry-leading 1K waterborne system for OEM cabinet production

NDuraSilk™ is the NextGen coating system for cabinets, specifically developed for OEM manufacturers. With fast drying times, no pot life and the flexibility to use left over product for repairs and future runs, NDuraSilk™ helps you achieve your production, performance and sustainability goals. Benefit from a highly durable and innovative solution enhanced by the ability for color control and custom color creation with MaestroHue® on-site color mixing.

Discover our NextGen system for cabinet coating solutions

NDuraSilk™ cabinet coating delivers effective, lasting protection backed by AkzoNobel's industry leading technical testing, support and coating expertise.

NDuraSilk 1K WB Primers 650-0139

NDuraSilk 1K WB Enamel Neutral Base 680-90XX

NDuraSilk 1K WB Enamel White Base 660-90XX

Meets industry standards: Kitchen Cabinet Manufacturers Association (KCMA) performance requirements

Compatible with MaestroHue allowing customers complete color control and the ability to create custom colors

Compliant with the most stringent regulations

For detailed technical information, refer to the specific Product Data Sheet

Waterborne coatings no longer suffer from extended curing times.

NDuraSilk™ exhibits the rapid cure response typical of modern solventborne coatings. This enables manufacturers to stack coated substrates sooner and seamlessly proceed to subsequent production steps. With efficient handling, rapid turnaround times, and high-volume production, this coating improves efficiency and reduces waste.

Features

Benefit

Fast Drying

Allows faster stacking at the end of the production line without marring the finish. Also reduces rework and minimizes scrap material

1K Product Series

No pot life limitation, so any leftover material can be used later. Reduces waste (which is more sustainable) and saves money on disposal and coating costs

2K Performance

Offers the durability, appearance, and performance of 2-component products without drawbacks like pot life and waste

Waterborne Material

Sustainable raw material and safer for individuals using the product

MaestroHue Compatible

Enables precise material usage, minimizing waste and cost for the job/project

It all adds up

Reduced VOC emissions

Less waste produced

Long lasting protection

Join the sustainability journey
